

The following table shows the percentage of surcharge applicable to the transport cost of all national shipments according to the change of fuel price.

- The calculation of the "Fuel surcharge" for national shipments is related to the fuel price indicated by the Ministry of Economic Development.
- The supplement refers to the cost of each single shipment, but not to any accessory services.

Actual fuel price: https://dgsaie.mise.gov.it/prezzi_carburanti_mensili.php?pid=2
